Windows

The Visage Rio Flush Sash combines modern REHAU PVCu performance with the authentic appearance of real wood. The clean, flush-fit design in beautiful woodgrains and colours, make Visage Rio Flush Sash windows the perfect style choice for a traditional or contemporary home.

Reinvented for
modern life

Designed for perfection

Visage Rio Flush Sash windows are manufactured using REHAU PVCu profile technology and the latest production techniques.

The result is a window that combines all the appeal of beautifully finished timber, with the modern benefits of superior energy efficiency, high-security and low maintenance.

Timber-look fully-welded corners

Modern and traditional handle options

PAS 24 enhanced security

Noise reduction

Weather tested

Low maintenance

Attention to detail

Visage Rio Flush Sash windows feature clean lines and slim frames designed to enhance the aesthetics of your property. A choice of modern and traditional handles and fittings are available to create the look that suits your home's decor and style.

Available in a classic chamfered frame, they are glazed with low sight-line beads and gaskets, allowing more natural light into the room.

Other Visage Rio Flush Sash window design choices include matching single and French double doors. Heritage Georgian bars are also an option to create a period look.

A window with style and sophistication at its heart

- 1 Double glazed energy saving glass as standard
- 2 Traditional low level sculptured bead
- 3 Integral low level gasket
- 4 Thermally efficient multi-chambered frames

- 5 Two frame depth options to suit any house style
- 6 Chamfered frame style
- 7 Timber-look welded corner joints
- 8 Choice of twenty colour options (See Page 8)

The Visage Rio Flush Sash window is a realistic alternative to traditional timber windows. Our extensive range of colours, including our exclusive Turner Oak, gives a quality finish to the exterior of a traditional building.

Timber-look joint

Visage Rio Flush Sash windows feature a cleverly engineered jointing and welding process that replicates the look of a traditional timber corner joint, but with the high strength of a PVCu frame.

Sustainability

As a Global manufacturer of PVCu profiles, REHAU is conscious of the impact their actions have on people and the environment.

The use of recycled materials is one of REHAU's strategic objectives and we are committed in supporting that objective by leading change in the attitudes towards and accessibility of recycling.

In 2014, recycling business PVCr Ltd was welcomed into the REHAU group and has since benefited from significant investment in its recycling equipment. This has enabled the processing of over 15,000 tonnes of post-consumer windows and doors per year.
